BRANDS HEYWOOD AS A FALSIFIER

Specifies Where Western Federa tion Miners Took United Mine Workers' Places.

GENERAL SCALE IS REPORTED

Convention Makes Nine Demands-Conference With Mine Operators is Arranged.

(By Associated Press.)

INDIANAPOLIS, IND., January 22.-President Mitchell to-day announced to the United Mine Workers' Convention, that arrangements had been completed with the presidents of the coal carrying railroads and the representatives of the Indiana Independent Operators' Association to meet the miners' specialty committee on February 15, at such place may be hereafter designated to consider their relations, after the expira-

sider their relations, after the expiration of the anthracite coal strike commission's award.

The general scale committee reported to the convention to-day. The report contains the following demands:

First-We demand that districts 13, 14, 21, 24 and 15, be admitted to the joint conference, also the admission of all outlying districts whose operators are willing to participate.

Second-We demand a general advance of 12:1-2 per cent over the present scale, Third-We demand a run of mine basis. Fourth-We demand that the differential between pick and machine mining shall be seven cents.

Fifth-We demand a uniform outside day wage scale.

Sixth—We demand that all yardage and dead work be advanced the 121-2

and dead work be advanced the per cent.

Seventh—We demand that no boy under sixteen years of age shall be employed in or around the mines.

Eighth—We demand that our contract become effective April 1, 1906, and expire April 1, 1907.

Ninth—We demand that eight hours

shall constitute a day's work Echo of Randall Incident.

There was a sensational scene in convention to-day, which was an echo of the attack made on John Mitchell by Robert Handall, of Dietz, Wyo., in last year's convention.

A delegate named A. F. Germer, of Mount Olive, Ill., made the charge that some of Randall's statements were correct last year,

He presented a letter from Secretary

Heywood, of the Western Association of Miners, in which Heywood denied the statement made in Mitchell's address of Saturday that Western federation mem-bers were taking the places of the United Mine Workers on strike.

Mr. Mitchell made reply to this in a are well as the same of the United when the Workers on strike.

SUMMER WEATHER.

Thermometer's Silver Thread Does All Manner of Stunts.

Does All Manner or Stunts.

The temperature of yesterday seemed to bring about a reversion of the seasons. Winter for the nonce became spring, and with the silver field climbing to the regions of an abnormal warmth, at this time of the year, almost to torridity, on, was tempted to throw off all superflous clothes and prepare to bask in the warmth of a spring sun. of a spring sun.

The heat of yesterday was excessive, far

The heat of yesterday was excessive, far above the normal, the mercury rising at its highest to nearly summer heat, which is registered at % Pahrenheit. The highest temperature yesterday was % the lowest, & giving an average of & 1-2.

With this abnormal rise all overcoats were discarded, wholeows were thrown open, and there was hardly any one who at some time through the day did not feel a few drops of perspiration. It was a June day come defore her time, and January, with its usual accompaniments of snow and cruel winds, seemed to ... ave ellipsed by unaware.

In business offices, where the full force of the heating arrangements had not been reduced to meet the abnormal conditions, the excessive warmth amounted almost to suffering. Those who worked indoors exteriored much hydred discords a processive warmth amounted almost to

suffering. Those who worked indoors ex-perienced much physical discomfort, and whose work keeps them outside fared hardly better, though they were, at least, benefited by such little breezes as

least, benefited by such little breezes as might have been stirring.

Cold weather is in sight again, but should it have happened that yester-fay's heat continued, fruit growers would receive a big scare, for it would not take a long continuance of such weather to bring out all the fruit trees in bloom. This does happen occasionally, though never as early as this, and the fruit crop is ruined with the ever resulting freeze.

OLD PEOPLE

Most old people are great sufferers in Winter. They IN WINTER

are seldom free from pains or ailments of some description, because they are not as able to withstand the severity of the climate, with its damp, changing

not as able to withstand the severity of the climate, with its damp, changing weather, as are their younger, more vigorous companions. Cold weather starts the old aches and pains; they suffer with chilly sensations, cold extremities, poor appetite and digestion, nervousness, sleeplessness and other afflictions peculiar to old age. With advancing years the strength and vitality of the system begin to decline. The heart action is weak and irregular, the blood becomes thin and sluggish in its circulation, and often some old blood taint that has lain dormant in the system for years begins to manliest itself. A wart or pimple becomes a troublesome sore or ulcer, skin dispasses break out or the slight rheumatic pains felt in younger days now cause

liest itself. A wart or pimple becomes a thoublesome sore or ulcer, skin diseases break out, or the slight rheumatic pains felt in younger days now cause sleepless nights and hours of agony. There is no reason why old age should not be healthy and free from disease if the blood is kept pure and the system strong, and this can be done with S. S. S. It is a medicine that is especially adapted to old people, because it is made entirely of roots, herbs and barks, selected for their purifying, healing and building up properties, and is very mild and gentle in its action. S. S. S. warms and reinvigorates the sluggish blood so that it moves with more rapidity, and clears it of all impurities and poisons. As this rich, healthy attended to the system is built up, the appetite and digestion improve, the heart action increases and the diseases and discomforts of old age pass away. S. S. S. cures Rheumatism, Catarrh, Ukin-Diseases, Sores and Ulcers, and all troubles arising from the system is built up, the appetite and digestion improve, the heart action increases and the diseased blood.

cers Influencing the Hazing of

Annapolis Men.

'GOING AWAY AFTER DINNER'

Lieut. Snyder Absented Himself

So Fourth Class Could Be

"Disciplined."

(By Associated Press.)
ANNAPOLIS, MD., Junuary 22.—For

the first time since the present hazing

trials began, evidence was to-day given

before the court-martial tending to sup-

port the assertion that officers on duty

at Annapolis have winked at hazing. Mid

shipman Claud B. Mayo, of Columbus,

Miss., testifying in his own behalf, swore

that Lieutenant C. P. Snyder, the officer

in charge of Bancroft Hall last Septem-

ber, had used language which was gen-

rally interpreted by the upper class mid-

hipmen to mean that they should discioline the fourth classmen by applying

Midshipman H. B. Reine, of the inst-class, testified as to the fourth classmen laughling in ranks, and said that Lieu-tenant Snyder had asked Brainard what was the matter with the fourth class-men, and Brainard replied: "They don't get enough of it." The officer then asked him why and Brainard said:

Mayo then told of the conversation and said that the officer actually did leave the building after dinner. As had then, he said, gone to the rooms of some fourth classmen and had put them on their heads or caused them to do the "sixteenth" for a very short time each. He had held a watch, he said, so that time would not be too long and has scratched their names from a list so that they would not be punished twice.

Lieutenant C. P. Sayder was called by the prosecution in rebuttal. He remembered only that he had poken to Brainard about the laughter. He could not remember the words attributed to him, but would not say absolutely that he ...ad not used them. He denied positively, however, that he had said to Brainard that

ever, that he had said to Brainard that he was going to leave the building.

"Red Sunday" in Russia As Tran-

quil As Blue Monday in

America.

(By Associated Press.)

ST. PETERSBURG, January 22.—Frequent patrols in all the streets, marching at wide intervals, in "bomb" formation, are almost the only indication that to-day was the aniversary of "Red Sunday." The stores were all open, and the ordinary life of the city proceeded as usual Bands of workmen were encountered occasionally, proceeding from one factory region to another, sometimes chanting a revolutionary chorus, but otherwise they were orderly. The anniversary passed in the tamest fashion. There were no developments or disorders. Early dispatches from the interior report that no serious trouble occurred anywhere.

The day here was absolutely uneventful except for the stoppage of work at some of the factories, but the attempt to make the strike general was a failure. A large proportion of the workmen disregarded the appeal. The electric light plants and street car services are both working and the stores are open everywhere. Joint patrols of cavalry and infantry swept up and down the streets at intervals, and pickets were stationed at every corner.

COLD WAVE IS ON THE WAY

(By Associated Press.)

WASHINGTON, Jan. 22 .- A cold wave rom the West is crowding yesterday's ecord-breaking warm wave, and by to norrow, according to weather officials, there will be cooling rains on the Atantic coast and snow or rain in the Chio Valley and the lower Lake Country Because of a high pressure over the At-antic Ocean, the cold wave's progress is slow, but the present official calculations figure on possible snow Wednesday in the Middle Atlantic States and the Northwest, and snow in the lower lake region and the upper Ohio Valley. Despite the cold wave headed this way and the severe storm in Chicago and the snow falling there to-night and in various places as far South as Vicksburg, Miss., it was even warmer to-day than yesterday in some sections of the East. In this city to-day the maximum temperature was Tl degrees against & yeslow, but the present official calculations in this city to-day the maximum temperature was 71 degrees against 63 yesterday, and in the Ohio Valley the temperature reached 74 degrees, about the same as yesterday. The cold wave, however, has already oversprend the loger Mississippi Valley. Cold, clear weather prevailed to-day in the West, and it will be cooler in the Atlantic coast region generally Wednesday.

Freshets in Tennessee.

Freshets in Tennessee.

(Special to The Times-Dispatch.)

BRISTOL, TENN., January 22.—A heavy rainfall throughout East Tennessee and Southwest Virginia has caused unusual freshets in the rivers, flooding railway tracks and delaying trains. Two or three had washouts are reported on the Nortolk and Western Railway in Virginia and West Virginia, so that traffic will be delayed more than a day. The nearest washout to Bristol is at Groseclose, Va., where the track was torn up by a swift current. gram yesterday evening from Pelham, N.
C., stating that a man named John Bishop
